## Eligibility

### Applicability

- Available to customer accounts located in the eligible housing complex
- All solar generation will be exported to the grid and virtually allocated to the benefitting accounts as a bill credit
- 1 MW cap
- Available until total rated generating capacity of eligible qualified customers exceeds five percent of the utility's aggregate peak load in California

References: Applicability

### Eligible Generator

- PV system  $\leq 1$  MW, on-site, grid-tied, not oversized

References: Definitions

## Definitions

### Operator

- A qualified customer (QC) who operates a business by leasing or renting the residential complex from an owner and who has one or more eligible generators on premises

References: Definitions e

### Owner

- The QC who has the legal right of rightful claim to ownership of the residential complex and has one of more eligible generators on premises

References: Definitions d

### Property

- All the real property and apparatus employed in a single low-income housing enterprise on contiguous parcels of land
- Parcels may be divided by a dedicated street, highway or public thoroughfare or railway, so long as they are otherwise contiguous,

part of the same single low-income housing enterprise and all under the same ownership

References: Definitions f

### **Qualified Customer (QC)**

- A QC may be a separately metered tenant located in a participating property, the owner whose name is on the common area accounts or the customer-generator

References: Definitions c

## **Billing & Costs**

### **Relevant Period**

- A 12-month period or part, such that the end of the relevant period ends December 31 of each year

References: Billing A

### **Allocated Credit**

- Allocated credits will be credited to the eligible service accounts located at the eligible property

References: Rates; Billing D

### **Interconnection Costs**

- Not mentioned

### **Rates & Mandatory TOU**

- Service on this SOMAH Virtual Net Metering tariff is in addition to the customer's otherwise applicable rate (mandatory TOU not mentioned)

References: Rates

### **Monthly Billing**

- Customers must pay their bill monthly

References: Billing C

### **Nonbypassable Charges (NBC)**

- Not mentioned

### **Net Surplus Calculation (NSC)**

- Customers who elect to participate in NSC will receive retail rate compensation during the month of the meter reading
- At the end of the relevant period, participating service accounts will receive applicable compensation
- The minimum threshold for monetary payment at the end of the true-up period will be \$25 and amounts less than \$25 will be carried over to the next 12-month period
